 <u>Partner</u>

## WHAT WILL I LEARN?

The sociology degree will prepare you to understand and manage diversity, modernization and social change from local to global. The program's core competencies prepare you to enter careers requiring technological ability, communication, data gathering, analysis, community awareness and involvement, problem-solving, and critical thinking. This degree will also provide you with an understanding of the structure and functioning of groups and organizations, greater awareness of the environment and critical self-reflection.
